FUND SUMMARY

Investment Objective: Total return from capital appreciation and income.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on purchases of shares if you and your family invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial professional and in **How to Purchase Shares** on page 7 of the Fund's Prospectus.

Shareholder Fees (fees paid directly from your investment)	
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	5.75%
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None
Redemption Fee (as a % of amount redeemed, if sold within 90 days)	1.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.00%
Distribution and Service (12b-1) Fees	0.25%
Other Expenses ⁽¹⁾	0.97%
Acquired Fund Fees and Expenses ⁽²⁾	0.05%
Total Annual Fund Operating Expenses	<u>2.27%</u>
Fee Waiver ⁽³⁾	<u>(0.27)%</u>
Total Annual Fund Operating Expenses After Fee Waiver	2.00%

(1) Other Expenses are estimated for the current fiscal year.

(2) Acquired Fund Fees and Expenses are estimated for the current fiscal year. These are the indirect costs of investing in other investment companies, including exchange traded funds. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights, when issued, because the financial statements include only the direct operating expenses incurred by the Fund.

(3) The Fund's adviser has contractually agreed to waive its fees and reimburse expenses of the Fund, at least until December 31, 2018 to ensure that Total Annual Fund Operating Expenses After Fee Waiver and Reimbursement (exclusive of any front-end or contingent deferred loads; brokerage fees and commissions, acquired fund fees and expenses; borrowing costs (such as interest and dividend expense on securities sold short); taxes; and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, and contractual indemnification of Fund service providers (other than the adviser)) will not exceed 1.95% of the Fund's daily net assets. Fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (three years from the date that the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limit and any then-current expense limit. This agreement may be terminated only by the Trust's Board of Trustees, on 60 days' written notice to the Fund's adviser.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

1 Year	3 Years
\$766	\$1,219

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance.

Principal Investment Strategies: The Fund's adviser seeks to achieve the Fund's investment objective by investing primarily in common stock and fixed income securities of domestic issuers using the adviser's "Absolute Value" strategy. This strategy relies upon both fundamental and technical analysis to select securities the adviser believes are undervalued and mispriced by the markets.

The adviser uses qualitative and quantitative elements of fundamental analysis to identify securities currently discounted by the market such as those selling below the replacement cost of assets they represent. To determine if a company, in total, is being undervalued, the adviser's research team derives an estimate of the company's Absolute Value from key components, including management's competency, experience, culture, and ownership as well as earnings potential, free cash flow, current debt load, asset replacement cost and sector fundamentals. Once fundamentally-screened discounted securities are identified, the adviser assesses the risk and rewards of securities of the company at various levels of the capital structure (debt or common stock). After identifying the appropriate investment vehicle within the capital structure, the adviser uses technical analysis, such as a trend-following or a momentum-based price forecast, to identify what it believes is the optimal purchase price.

The Fund invests without restriction as to issuer capitalization, or the credit quality rating and maturity of fixed income securities. With respect to the fixed income portion of the Fund's portfolio, the adviser invests primarily in lower quality rated corporate debt commonly known as "junk bonds." Junk bonds are rated lower than Baa3 by Moody's Investors Service ("Moody's") or lower than BBB- by Standard and Poor's Rating Group ("S&P").

The adviser seeks capital appreciation from common and preferred stocks and fixed income securities as well as income from dividends or interest to generate total return. The Fund's adviser does not have a set asset allocation target between equity and fixed income securities. The adviser sells a security once a price target is reached, when more attractive investments are available or to optimally re-allocate Fund assets consistent with the adviser's Absolute Value strategy.

The Fund is non-diversified which means that it can invest a greater percentage of its assets in any one issue than a diversified fund.

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance.*

- **Equity Risk:** Common stock prices can fall rapidly in response to developments affecting a specific company or industry, or to changing economic, political or market conditions. Preferred stocks are hybrid securities that have characteristics of both fixed income securities and common stocks and are subject to fixed income risks and common stock risk.
- **Fixed Income Risk:** Typically, a rise in interest rates causes a decline in the value of fixed income securities. The value of fixed income securities typically falls when an issuer's credit quality declines and may even become worthless if an issuer defaults. Recently, interest rates have been historically low. Current conditions may result in a decline in the value of the fixed income securities held by the Fund. As a result, for the person, interest rate risk may be heightened.
- **Junk Bond Risk:** Lower-quality fixed income securities, known as "high yield" or "junk" bonds, present greater risk than bonds of higher quality, including an increased risk of default. These securities are considered speculative. Defaulted securities or those subject to reorganization proceeding may become worthless and are illiquid.
- **Limited History of Operations:** The Fund is a new mutual fund and has a limited history of operations for investors to evaluate. Investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategies or may fail to attract sufficient assets.
- **Management Risk:** The adviser's reliance on its value strategy and judgments about the attractiveness, value and potential appreciation of particular securities may prove to be incorrect and may not produce the desired results.
- **Market Risk:** Overall equity and fixed income securities market risks affect the value of the Fund. Factors such as domestic economic growth and market conditions, interest rate levels, and political events affect the US and international securities markets.
- **Non-Diversification Risk:** As a non-diversified fund, the Fund may invest more than 5% of its total assets in the securities of one or more issuers. The Fund's performance may be more sensitive to any single economic, business, political or regulatory occurrence than the value of shares of a diversified investment company. The Fund's performance may be affected disproportionately by the performance of relatively few stocks. In addition, the volatility of the Fund may be greater than the overall volatility of the market.

- *Small and Medium Capitalization Stock Risk:* The price of small or medium capitalization company stocks may be subject to more abrupt or erratic market movements than larger, more established companies or the market averages in general.
- *Value Investing Risk:* Value investing has time and price risks. When a position is purchased at a deeply discounted price, it may take a considerable amount of time for the company to turn around its fundamentals centered on a specific catalyst. Price risk is realized when a position is purchased at a price level that was thought to be at a low but the company experienced, for any given reason, further price decline.

Performance: Because the Fund does not have a full calendar year of investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of this Prospectus. Also, shareholder reports containing financial and performance information will be mailed to shareholders semi-annually. Updated performance information is available at no cost by visiting www.footprintfund.com or by calling 1-800-595-4866.

Investment Adviser: Footprints Asset Management & Research, Inc. is the Fund's investment adviser.

Investment Adviser Portfolio Manager: Stephen Lococo, Chartered Market Technician "CMT[®]", President of the adviser, has served the Fund as its Portfolio Manager since it commenced operations in 2017.

Purchase and Sale of Fund Shares: The investment minimums for the Fund are:

Initial Investment		Subsequent Investment	
Regular Account	Retirement Account	Regular Account	Retirement Account
\$10,000	\$5,000	\$100	\$100

The Fund reserves the right to waive any minimum. You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open. Redemption requests may be made in writing, by telephone, or through a financial intermediary and will be paid by ACH, check or wire transfer.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective:

The Fund's investment objective is total return from capital appreciation and income. The Fund's investment objective may be changed by the Trust's Board of Trustees upon 60 days' written notice to shareholders.

Principal Investment Strategies:

The Fund's adviser seeks to achieve the Fund's investment objective by investing primarily in common stock and fixed income securities of domestic issuers using the adviser's "Absolute Value" strategy. This strategy relies upon both fundamental and technical analysis to select securities the adviser believes are undervalued and mispriced by the markets.

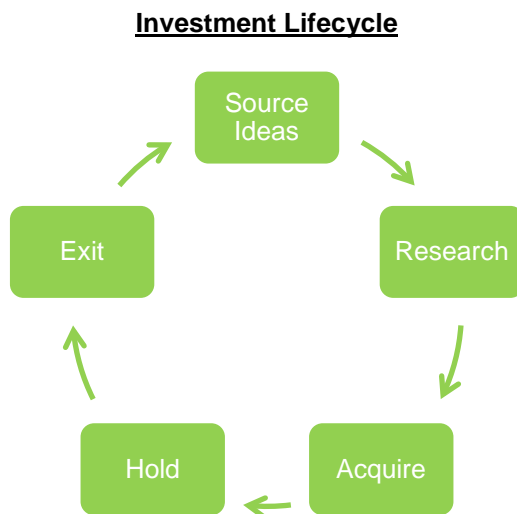

Investment Philosophy

The adviser believes that a multitude of factors work together to influence the marketplace. These elements converge to form the current market price for a given investment. This price formation is often times inaccurate and not reflective of an investment's true value. The adviser seeks to arrive at a potential investment's worth independently through discovering

its Absolute Value. In the adviser's opinion undervalued investments will, over time, be appreciated in the marketplace. The attractiveness of an investment is derived by the difference between its current market price and its Absolute Value. The adviser calls this price spread an investment's "Margin of Safety." Generally, the adviser seeks securities considered undervalued and mispriced by the markets. The adviser enters (buys) security positions with an attractive Margin of Safety and an expectation of price appreciation over an equity market cycle of several years.

Investment Process

The adviser's investment process incorporates the entire lifecycle of an investment. The process is represented in the diagram below, and explained in detail by each element of the process.

Source Ideas

The adviser sources ideas from a variety of internal and external resources. The adviser uses numerous broker dealers, subscription services, and in-house analysis to assist in facilitating idea generation for possible investment opportunities.

Research Process

The adviser's research process starts by identifying common stocks selling at or below their book value. The adviser then gathers data about each potential investment, applying multiple ratios and metrics, to assess the adviser's opinion of its Absolute Value. The adviser then determines if enough spread exists between an investment's Absolute Value and its current market price. A security with ample spread, or Margin of Safety, will then be scrutinized for its management's qualitative attributes (competence, experience, ownership, and culture). The adviser then selects the appropriate level of the capital structure to invest (common stock or debt). Through the use of technical analysis, the adviser identifies an optimal price range to acquire the security. Once all of these conditions are met, the security is placed on the buy list. This process can be seen by the diagram to the right.

Acquire Process

The acquisition of securities into the Fund is heavily influenced by the current composition of the Fund's holdings and its present requirements. If an investment revealed by the research process is considered suitable for the Fund, the adviser will originate or add to an existing position. The acquisition process is generally initiated by the security entering into an attractive price range, insider purchases, or other fundamental improvements. Acquisitions are gradually entered into, dependent mostly on an investment staying within its optimal price range maintaining the desired Margin of Safety.

Hold Process

The adviser consistently assesses the value of existing positions in the Fund. Generally, the adviser exercises patience when fundamentals are stable but prices volatile. The adviser may at times write covered call options on a small portion of existing common stock positions in the Fund to generate premium.

Exit Process

The adviser's decision to exit a position can be initiated by numerous factors. Steep increases in price, revealing short-term over-buying, may lead the adviser to exit a portion of an investment to mitigate price risk (risk of a price falling). Re-allocations whether for new opportunities or Fund requirements (e.g. liquidity) may also lead the adviser to exit particular positions. When the adviser deems a change in fundamentals or a shift in management to negatively impact an investment, the adviser may exit the position. The Fund may also exit positions as part of contractual obligations (e.g. calling bonds, options exercise, credit obligation maturity, etc.).

Principal Investment Risks:

- *Equity Risk:* Common stock prices may rise or fall because of economic or political changes. Stock prices, in general, may decline over short or even extended periods of time, and tend to be more volatile than other investment choices. Market prices of equity securities in broad market segments may be adversely affected by a prominent issuer having experienced losses or by the lack of earnings or such an issuer's failure to meet the market's expectations with respect to new products or services, or even by factors wholly unrelated to the value or condition of the issuer, such as changes in interest rates. The value of preferred stocks will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of preferred stock. Preferred stocks are also subject to credit risk, which is the possibility that an issuer of preferred stock will fail to make its dividend payments. Preferred stock prices tend to move more slowly upwards than common stock prices.
- *Fixed Income Risk:* Fixed income risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early or later than expected, potentially reducing the amount of interest payments or extending time to principal repayment). These risks could affect the value of a particular investment possibly causing the Fund's share price and total return to be reduced and fluctuate more than other types of investments. When the Fund invests in fixed income securities the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities.
- *Junk Bond Risk:* Lower-quality fixed income securities, known as "high yield" or "junk" bonds, present a significant risk for loss of principal and interest. These securities are considered speculative. These bonds offer the potential for higher return, but also involve greater risk than bonds of higher quality, including an increased possibility that the bond's issuer, obligor or guarantor may not be able to make its payments of interest and principal (credit quality risk). If that happens, the value of the bond may decrease, and the Fund's share price may decrease and its income distribution may be reduced. An economic downturn or period of rising interest rates (interest rate risk) could adversely affect the market for these bonds and reduce the Fund's ability to sell its bonds (liquidity risk). Such securities may also include "Rule 144A" securities, which are subject to resale restrictions. The lack of a liquid market for these bonds could decrease the Fund's share price. Defaulted securities, those subject to a reorganization including bankruptcy court protection may become worthless, completely illiquid or subject to lengthy legal proceedings that will delay the resolution of their value, if any.
- *Limited History of Operations:* The Fund is a new mutual fund and has a limited history of operations for investors to evaluate. Investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategies, may be unable to implement certain of its investment strategies or may fail to attract sufficient assets, any of which could result in the Fund being liquidated and terminated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such a liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.
- *Management Risk:* The adviser's reliance on its value strategy and its judgments about the value and potential capital appreciation securities in which the Fund invests may prove to be incorrect. The ability of the Fund to meet its investment objective is directly related to the adviser's proprietary investment process. The adviser's assessment of the relative value of securities, their attractiveness and potential capital appreciation of particular investments in which the Fund invests may prove to be incorrect and there is no guarantee that the adviser's investment strategy will produce the desired results.
- *Market Risk:* Overall equity and fixed income market risk, including volatility, may affect the value of individual instruments in which the Fund invests. Factors such as domestic economic growth and market conditions, interest rate levels, and political events affect the securities markets. When the value of the Fund's

investments goes down, your investment in the Fund decreases in value and you could lose money.

- *Non-Diversification Risk:* As a non-diversified fund, the Fund may invest more than 5% of its total assets in the securities of one or more issuers. The Fund's performance may be more sensitive to any single economic, business, political or regulatory occurrence than the value of shares of a diversified investment company. Because the Fund may invest a high percentage of its assets in its largest holdings, the Fund's performance may be affected disproportionately by the performance of relatively few stocks. In addition, the volatility of the Fund may be greater than the overall volatility of the market.
- *Small and Medium Capitalization Stock Risk:* The stocks of small and medium capitalization companies involve substantial risk. These companies may have limited product lines, markets or financial resources, and they may be dependent on a limited management group. Stocks of these companies may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market averages in general.

Temporary Investments: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because shareholders will pay the fees and expenses of the Fund and, indirectly, the fees and expenses of the underlying money market funds. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information.

Cybersecurity: The computer systems, networks and devices used by the Fund and their service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and their service providers, systems, networks, or devices potentially can be breached. The Fund and their shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its net asset value ("NAV"); impediments to trading; the inability of the Fund, the adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser: Footprints Asset Management & Research, Inc., 11422 Miracle Hills Drive, Suite 208, Omaha, NE 68154, serves as investment adviser to the Fund (the "Adviser"). Subject to the authority of the Board of Trustees, the Adviser is responsible for management of the Fund's investment portfolio. The Adviser is responsible for selecting the Fund's investments according to the Fund's investment objective, policies and restrictions. The Adviser was established in 2003 for the purpose of providing investment and financial planning advice to individuals and institutions. As of September 30, 2017 the Adviser had approximately \$68 million in assets under management.

Pursuant to an investment advisory agreement between the Trust, on behalf of the Fund, and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.00% of the Fund's average daily net assets. The Adviser has contractually agreed to waive its fees and reimburse expenses of the Fund, at least until December 31, 2018 to ensure that Total Annual Fund Operating Expenses After Fee Waiver and Reimbursement (exclusive of any front-end or contingent deferred loads; brokerage fees and commissions, acquired fund fees and expenses; borrowing costs (such

as interest and dividend expense on securities sold short); taxes; and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, and contractual indemnification of Fund service providers (other than the Adviser)) will not exceed 1.95% of the Fund's average daily net assets. Fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits and any then-current expense limit. This agreements may be terminated only by the Trust's Board of Trustees, on 60 days' written notice to the Adviser. Fee waiver and reimbursement arrangements can decrease a fund's expenses and boost its performance. A discussion regarding the basis for the Board of Trustees' approval of the advisory agreement will be available in the Fund's first annual or semi-annual report to shareholders.

Investment Adviser Portfolio Manager:

Steve Lococo, CMT® founded the Adviser in 2003 and serves as its President. Mr. Lococo is also a registered representative of GVC Capital LLC, a registered broker-dealer (2003–present). Prior to founding the Adviser, Mr. Lococo was a registered representative for Smith Hayes Financial Services (2002-2003), Kirkpatrick Pettis (1990-2002), Paine Webber (1984-1990), and worked in various positions within the broker-dealer First Mid-America (1976-1984). Mr. Lococo holds a BA in Finance from the University of Nebraska and has acquired several industry licenses, including NASD (presently FINRA) Series 7, 24, 63, and 65 licenses and is a Level II Chartered Market Technician. He was the portfolio manager to the Footprints Discover Value Fund, a series of Northern Lights Fund Trust III, from December 2012 until it was liquidated in December 2017. He has served as the Fund's portfolio manager since its inception.

The Fund's Statement of Additional Information provides additional information about the Portfolio Manager's compensation structure, other accounts managed by the Portfolio Manager, and the Portfolio Manager's ownership of shares of the Fund.

HOW SHARES ARE PRICED

The Fund's NAV is calculated by taking the total value of the Fund's assets, subtracting its liabilities, and then dividing by the total number of shares outstanding, rounded to the nearest cent. The Fund's assets are generally valued at their market value using market quotations. The Fund may use pricing services to determine market value. If market prices are not available or, in the adviser's opinion, market prices do not reflect fair value, or if an event occurs after the close of trading on the domestic or foreign exchange or market on which the security is principally traded (but prior to the time the NAV is calculated) that materially affects fair value, the investment adviser will value the Fund's assets at their fair value according to policies approved by the Fund's Board of Trustees. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the adviser may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short term traders could take advantage of the arbitrage opportunity and dilute the NAV of long term investors. Securities trading on overseas markets present time zone arbitrage opportunities when events effecting portfolio security values occur after the close of the overseas market, but prior to the close of the U.S. market. Because foreign securities trade on days when the Fund's shares are not priced, the value of securities held by the Fund can change on days when the Fund's shares cannot be purchased or redeemed. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. Fair valuation involves subjective judgments and it is possible that the fair value determined for a security may differ materially from the value that could be realized upon the sale of the security. The Fund may invest in ETFs and other investment companies ("Underlying Funds"). When the Fund invests in Underlying Funds, the Fund's NAV is calculated based, in part, upon the market prices of the Underlying Funds. The prospectuses of those companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Purchasing Shares: This section of the prospectus explains the basics of doing business with the Fund. Fund shares can be held directly with the Fund or indirectly through an intermediary, such as a bank, a broker, or an investment advisor. If you hold Fund shares directly, you should carefully read each topic within this section that pertains to your relationship with the Fund. If you hold Fund shares indirectly through an intermediary refer to your account agreement with the intermediary for information about transacting in that account.

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that when you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We also may ask for other identifying documents or information, and may take additional steps to verify your identity. We may not be able to open your account or complete a transaction for you until we are able to verify your

identity. You may buy shares on any "business day." Business days are Monday through Friday, other than days the New York Stock Exchange (NYSE) is closed, including the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas Day.

Purchase orders received in "proper form" by the Fund's transfer agent before the close of trading on the NYSE will be effective at the NAV next calculated after your order is received, plus applicable sales charges. On occasion, the NYSE closes before 4:00 p.m. Eastern time ("ET"). When that happens, purchase orders received after the NYSE closes will be effective the following business day.

To be in "proper form," the purchase order must include:

- Fund name and account number;
- Account name(s) and address;
- The dollar amount or number of shares you wish to purchase.

The Fund may limit the amount of purchases and refuse to sell to any person. The initial and subsequent investment minimums for the Fund by account type are:

Initial Investment		Subsequent Investment	
Regular Account	Retirement Account	Regular Account	Retirement Account
\$10,000	\$5,000	\$100	\$100

How to Initiate a Purchase Request

By mail. You may send the Fund your Shareholder Account Application form and check to open a new fund account. If you are purchasing directly from the Fund, send the completed Shareholder Account Application and a check payable to the Fund to the following address:

Footprints Discover Value Fund
 c/o Mutual Shareholder Services, LLC
 8000 Town Centre Drive, Suite 400
 Broadview Heights, OH 44147-4031

By telephone. You may call the Fund to begin the account registration process or request that the account-opening forms be sent to you. If you are investing directly in the Fund for the first time, please call the Fund's transfer agent at 1-800-595-4866 to request a Shareholder Account Application. You will need to establish an account before investing. Be sure to sign up for all the account options that you plan to take advantage of. For example, if you would like to be able to redeem your shares by telephone, you should select this option on your Shareholder Account Application. Doing so when you open your account means that you will not need to complete additional paperwork later.

[Online. You may open certain types of accounts and request a purchase of shares through the Fund's website if you are registered for online access.]

How to Pay for a Purchase

By electronic bank transfer. You may purchase shares of the Fund through an electronic transfer of money from a bank account. To establish the electronic bank transfer service on an account, you must designate the bank account online, or fill out the appropriate section of your Shareholder Account Application form. After the service is set up on your account, you can purchase shares by electronic bank transfer on a regular schedule (Automatic Investment Plan) or upon request. Your purchase request can be initiated online (if you are registered for online access), by telephone, or by mail.

By wire. If you choose to pay by wire, you must call the Fund's transfer agent, at 1-800-595-4866 to obtain instructions on how to complete the wire transfer. Wire orders will be accepted only on a day on which the Fund's, custodian and transfer agent are open for business. A wire purchase will not be considered made until the wired money and the purchase order are received by the Fund. Any delays that may occur in wiring money, including delays that may occur in processing by the banks, are not the responsibility of the Fund or its transfer agent. The Fund presently does not charge a fee for the receipt of wired funds, but the Fund may charge shareholders for this service in the future.

By check. All purchases (both initial and subsequent) must be made in U.S. dollars and checks must be drawn on U.S. banks. Cash, credit cards and third party checks will not be accepted. Third party checks and checks drawn on a non-

U.S. financial institution will not be accepted, even if payment may be effected through a U.S. financial institution. Checks made payable to any individual or company and endorsed to the Fund are considered third-party checks.

A \$20 fee will be charged against your account for any payment check returned to the transfer agent or for any incomplete electronic funds transfer, or for insufficient funds, stop payment, closed account or other reasons. If a check does not clear your bank or the Fund is unable to debit your pre-designated bank account on the day of purchase, the Fund reserves the right to cancel the purchase. If your purchase is canceled, you will be responsible for any losses or fees imposed by your bank and losses that may be incurred as a result of a decline in the value of the canceled purchase. The Fund and the Fund's transfer agent each have the authority to redeem shares in your account(s) to cover any losses due to fluctuations in share price. Any profit on such cancellation will accrue to the Fund.

Sales Charges, Reductions and Waivers

Shares are offered at the public offering price, which is net asset value per share (NAV) plus the applicable sales charge. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. You can also qualify for a sales charge reduction or waiver through a right of accumulation or a letter of intent if you are a U.S. resident. See the discussions of "Right of Accumulation" and "Letter of Intent" below. The Fund reserves the right to waive any load as described below. The following sales charges apply to your purchases of shares of the Fund:

Amount Invested	Sales Charge as a % of Offering Price	Sales Charge as a % of Amount Invested	Dealer Reallowance
Under \$25,000	5.75%	6.10%	5.00%
\$25,000 to \$49,999	5.00%	5.26%	4.25%
\$50,000 to \$99,999	4.75%	4.99%	4.00%
\$100,000 to \$249,999	3.75%	3.83%	3.25%
\$250,000 to \$499,999	2.50%	2.56%	2.00%
\$500,000 to \$999,999	2.00%	2.04%	1.75%
\$1,000,000 and above	1.00%	1.01%	1.00%.

How to Reduce Your Sales Charge

You may be eligible to purchase shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Arbor Court Capital, LLC (the "distributor"), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your "immediate family" (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of shares, you may combine your new purchases of shares with shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment advisor);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs; and
- Shares held directly in the Fund account on which the broker-dealer (financial advisor) of record is different than your current purchase broker-dealer.

Letters of Intent: Under a Letter of Intent ("LOI"), you commit to purchase a specified dollar amount of shares of the Fund, with a minimum of \$25,000, during a 13-month period. The 13-month period begins upon the date of the LOI. At your written request, shares purchases made during the 90 days prior to the LOI may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested.

You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13-month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Shares: If you have redeemed shares of the Fund within the past 120 days, you may repurchase an equivalent amount of shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of shares is waived for certain types of investors, consisting of:

- Clients of the Adviser that pay an advisory fee.
- Current and retired directors and officers of the Fund sponsored by the Adviser or any of its subsidiaries, their immediate families (i.e., spouse, children, mother or father) and any purchases referred through the Adviser.
- Employees of the Adviser and their immediate families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the Fund's shares and their immediate families.
- Institutional investors (which may include bank trust departments and registered investment advisors).
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan's investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an "NAV transfer"). Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

If you have any questions regarding the Fund, please call 1-800-595-4866.

HOW TO REDEEM SHARES

REDEEMING SHARES: You may redeem your shares on any business day. Redemption orders received in proper form by the Fund's transfer agent or by a brokerage firm or other intermediary selling Fund shares by 4:00 p.m. ET (or before the NYSE closes if the NYSE closes before 4:00 p.m. ET) will be processed at that day's NAV. Your brokerage firm or intermediary may have an earlier cut-off time, as permissible.

"Proper form" means your request for redemption must:

- Include the Fund name and account number;
- Include the account name(s) and address;
- State the dollar amount or number of shares you wish to redeem; and
- Be signed by all registered share owner(s) in the exact name(s) and any special capacity in which they are registered.

The Fund may require that the signatures be guaranteed if the mailing address of the account has been changed within 30 days of the redemption request. The Fund also may require that signatures be guaranteed for redemptions of \$25,000

or more. Signature guarantees are for the protection of shareholders. You can obtain a signature guarantee from most banks and securities dealers, but not from a notary public. All documentation requiring a signature guarantee must utilize a New Technology Medallion stamp. For joint accounts, both signatures must be guaranteed. Please call the transfer agent at 1-800-595-4866 if you have questions regarding signature guarantees. At the discretion of the Fund, you may be required to furnish additional legal documents to insure proper authorization. The Fund will not make checks payable to any person other than the shareholder(s) of record. Payment will be made within seven days, except as described in *Additional Redemption Information* below.

How to Initiate a Redemption Request

[Online. You may request a redemption of shares through the Fund's website if you are registered for online access.]

By telephone. You may call the Fund at 1-800-595-4866 to request a redemption of shares. You may redeem any part of your account in the Fund by calling the transfer agent at 1-800-595-4866. You must first complete the Optional Telephone Redemption and Exchange section of the investment application to institute this option. The Fund, the transfer agent and the custodian are not liable for following redemption instructions communicated by telephone to the extent that they reasonably believe the telephone instructions to be genuine. However, if they do not employ reasonable procedures to confirm that telephone instructions are genuine, they may be liable for any losses due to unauthorized or fraudulent instructions. Procedures employed may include recording telephone instructions and requiring a form of personal identification from the caller.

The Fund may terminate the telephone redemption procedures at any time. During periods of extreme market activity it is possible that shareholders may encounter some difficulty in telephoning the Fund, although neither the Fund nor the transfer agent has ever experienced difficulties in receiving and responding to telephone requests for redemptions or exchanges in a timely fashion. If you are unable to reach the Fund by telephone, you may request a redemption or exchange by mail.

By mail. You may send a written request to the Fund. You may redeem any part of your account in the Fund by mail at no charge. Your request, in proper form, should be addressed to:

Footprints Discover Value Fund
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147-4031

Automatic Withdrawal Plan. [_____]

How to Receive Redemption Proceeds

By electronic bank transfer. You may have the proceeds of a redemption sent directly to a designated bank account. To establish the electronic bank transfer service on an account, you must designate a bank account in the appropriate section of your Shareholder Account Application form. After the service is set up on your account, you can redeem shares by electronic bank transfer on a regular schedule (Automatic Withdrawal Plan) or upon request. Your redemption request can be initiated online (if you are registered for online access), by telephone, or by mail.

By wire. To receive your proceeds by wire, you may instruct the Fund to wire your redemption proceeds to a previously designated bank account. To establish the wire redemption service, you generally must designate a bank account in your Shareholder Account Application. A wire transfer fee of \$20 will be charged to defray custodial charges for redemptions paid by wire transfer. Any charges for wire redemptions will be deducted from your account by redemption of shares.

By check. If you have not chosen another redemption method, the Fund will mail you a redemption check, generally payable to all registered account owners, normally on or before the fifth business day following the redemption, and generally to the address of record.

ADDITIONAL REDEMPTION INFORMATION:

If you are not certain of the redemption requirements, please call the transfer agent at 1-800-595-4866. Redemptions specifying a certain date or share price cannot be accepted and will be returned. You may be assessed a fee if the Fund incurs bank charges because you request that the Fund re-issue a redemption check. The Fund may not suspend the right of redemption or postpone payment or satisfaction of a proper redemption request for more than seven days, except

(1) for any period during which the NYSE is closed (or when trading is restricted) for any reason other than its customary weekend or holiday closing; or (2) for any period during which any emergency circumstances as a result of which (A) disposal by the company of securities owned by it is not reasonably practicable or (B) it is not reasonably practicable for such company fairly to determine the value of its net assets; or (3) for such other periods, as determined by the Securities and Exchange Commission ("SEC"). The Fund expects that it will take up to seven calendar days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer, except as noted above. The Fund expects to pay redemptions from cash, cash equivalents, proceeds from the sale of additional fund shares, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

REDEMPTIONS IN KIND:

The Fund reserves the right to honor requests for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") on the amount of such a request that is large enough to affect operations (that is, on the amount of the request that is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. The Fund may use illiquid securities for redemptions in kind. A shareholder will be exposed to market risks until these securities are converted to cash and may incur transaction expenses or taxable capital gains in converting these securities to cash.

Low Balances: Because the Fund incurs certain fixed costs in maintaining shareholder accounts, the Fund may require that you redeem all of your shares in the Fund upon 30 days written notice if the value of your shares in the Fund is less than \$5,000 due to redemption, or such other minimum amount as the Fund may determine from time to time. You may increase the value of your shares in the Fund to the minimum amount within the 30-day period. All shares of the Fund is also subject to involuntary redemption if the Board of Trustees determines to liquidate the Fund. An involuntary redemption will create a capital gain or a capital loss, which may have tax consequences to you and about which you should consult your tax adviser.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing (the "Market Timing Trading Policy"). Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund discourages excessive short-term trading in Fund shares and does not accommodate such trading activity by investors. The Fund considers excessive short-term trading to be any pattern of frequent purchases and redemptions of the Fund's shares by an investor or group of investors, acting in concert, that could interfere with the efficient management of the Fund's portfolio or result in increased brokerage and administrative costs. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy";
- Rejecting or limiting specific purchase requests;
- Rejecting purchase requests from certain investors; and
- Charging a 2% redemption fee on shares sold within 90 days.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders. Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund and elect to reject or limit the amount, number, frequency or method for requesting future purchases of the Fund's shares.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their

identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or their transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

The Fund and the Adviser reserve the right to modify or eliminate the redemption fee at any time. If there is a material change to the Fund's redemption fee, the Fund will notify you at least 60 days prior to the effective date of the change. The Fund and the Adviser also reserve the right to waive the redemption fee for any shareholder if the circumstances warrant.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares, you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains annually in December. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Arbor Court Capital, LLC ("Arbor Court"), 8000 Towne Center Drive, Broadview Heights, Ohio 44147 is the distributor for the shares of the Fund. Arbor Court is a registered broker-dealer and member of the Financial Industry

Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution Fees: The Trust, on behalf of the Fund, has adopted a Distribution and Shareholder Servicing Plan for Fund shares (the "Plan") under Rule 12b-1, pursuant to which the Fund may pay the Fund's distributor an annual fee for distribution and shareholder servicing expenses of 0.25% the Fund's average daily net assets.

The Fund's distributor and other entities are paid under the Plan for services provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by the Financial Industry Regulatory Authority due to the recurring nature of distribution (12b-1) fees.

Additional Compensation to Financial Intermediaries: The Fund's distributor, its affiliates, and the Fund's Adviser and its affiliates may, at their own expense and out of their own assets including their legitimate profits from Fund-related activities, provide additional cash payments to financial intermediaries who sell shares of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

Householding: To reduce expenses, we mail only one copy of the prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-800-595-4866 on days the Fund is open for business or contact your financial institution. We will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

Because the Fund has only recently commenced investment operations, no financial highlights are available for the Fund at this time. In the future, financial highlights will be presented in this section of the Prospectus

**PRIVACY NOTICE
MSS SERIES TRUST**

FACTS

WHAT DOES THE MSS SERIES TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons the MSS Series Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does MSS Series Trust share information?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus.	YES	NO
For our marketing purposes - to offer our products and services to you.	NO	We don't share
For joint marketing with other financial companies.	NO	We don't share
For our affiliates' everyday business purposes - information about your transactions and records.	NO	We don't share
For our affiliates' everyday business purposes - information about your credit worthiness.	NO	We don't share
For our affiliates to market to you	NO	We don't share
For non-affiliates to market to you	NO	We don't share
